📍 Bengaluru, India → Targeting Dubai, UAE | Available for Relocation | Open to UAE Employment Visa Sponsorship

PROFESSIONAL SUMMARY

Results-driven Senior Full Stack Developer with 8+ years of experience architecting and delivering enterprise-scale web applications. Currently a Senior Technical Consultant at EY (Ernst & Young), with a proven track record across fintech, HR-tech, and large enterprise domains. Expert in React.js, Next.js, NestJS, GraphQL, and TypeScript. Seeking to bring world-class engineering capability to Dubai's thriving technology ecosystem — contributing to smart city initiatives, fintech innovation, and digital transformation projects across the UAE.

TECHNICAL SKILLS

Frontend	React.js · Next.js · TypeScript · JavaScript (ES6+) · Redux · Tailwind CSS · HTML5 · CSS3
Backend	Node.js · NestJS · GraphQL (Apollo) · REST APIs · Express.js
Tools	Git · GitHub · Jira · Figma · Postman · VS Code · Webpack · Vite
Architecture	System Design · Microservices · API Design · Performance Optimization · Code Reviews
Soft Skills	Technical Consulting · Team Leadership · Client Communication · Agile / Scrum

PROFESSIONAL EXPERIENCE

Senior Technical Consultant · Ernst & Young (EY)

Dec 2022 – Present

- ▶ Lead frontend architecture and full-stack development for high-value enterprise clients across banking, consulting, and government verticals — experience highly relevant to Dubai's enterprise and government tech sector.
- ▶ Architect and deliver scalable React.js / Next.js applications with GraphQL APIs and NestJS backends, serving thousands of concurrent users in production.
- ▶ Drive code quality standards, conduct architecture reviews, and mentor junior developers across distributed teams.
- ▶ Spearhead performance optimization initiatives reducing load times by 40%+ on critical client-facing dashboards.
- ▶ Collaborate directly with C-suite stakeholders to translate business requirements into technical roadmaps.

Lead Engineer · HCL Technologies

Apr 2021 – Dec 2022

- ▶ Led a team of 6 engineers building high-performance web platforms, overseeing design, development, and delivery.
- ▶ Architected reusable component libraries and design systems in React.js, reducing development time by 30% across projects.
- ▶ Implemented advanced state management patterns with Redux and Apollo Client for complex data-heavy applications.
- ▶ Actively collaborated with product and UX teams to ship customer-facing features on time across Agile sprints.

Software Developer · IIFL Wealth

Jan 2020 – Apr 2021

- ▶ Built responsive, data-rich fintech dashboards for wealth management, handling real-time financial data feeds and complex user workflows — directly applicable to Dubai's financial services sector.
- ▶ Developed RESTful API integrations and optimized frontend rendering for high-frequency data visualizations.
- ▶ Delivered features for a platform serving HNI (High Net-Worth Individual) clients with strict UX and performance SLAs.

Software Developer · CrewKarma Networks

Mar 2018 – Dec 2019

- ▶ Full-stack development for an early-stage startup — contributed across frontend (React.js), backend (Node.js), and database layers.
- ▶ Shipped core product features from ideation to production, including real-time notification systems and user onboarding flows.

FEATURED PROJECTS

iTrip.pro — Travel & Trip Management Platform itrip.pro ↗

- ▶ Modern travel management platform built with Next.js, React.js, TypeScript, and Tailwind CSS. Focused on scalable architecture, responsive UI, and premium UX.

TalentXO — Enterprise HR-Tech & Recruitment Platform talentxo.com ↗

- ▶ Enterprise recruitment platform serving companies, recruiters, and candidates — built with React.js, Next.js, GraphQL, and TypeScript. Handles complex multi-role workflows and high-traffic job matching.

EDUCATION

Bachelor of Technology (B.Tech) · Computer Science & Engineering

Graduated 2017

WHY DUBAI

Dubai's Vision 2030 smart city agenda, world-class fintech ecosystem, and position as the Middle East's premier technology hub align perfectly with my expertise in enterprise web development. I bring 8+ years of global delivery experience and am ready to relocate immediately. I welcome UAE Employment Visa Sponsorship and am familiar with the DIFC and Dubai Internet City (DIC) tech communities.
